### A New Hobby Gives You A Brand New Interest!

Yes, anyone from 5 to 80 can draw or sketch or paint anything now... the very first time you use the "Magic Art Reproducer" like a professional artist—no matter how "hopeless" you think you are! An unlimited variety and amount of drawings can be made. Art is admired and respected by everyone. Most hobbies are expensive, but drawing costs very little, just some inexpensive paper, pencils, crayons, or paint. No costly upkeep, nothing to wear out, no parts to replace. It automatically reproduces anything you want to draw on any sheet of paper. Then easily and quickly follow the lines of the "picture image" with your pencil ... and you have an accurate original drawing that anyone would think an artist had done. No guesswork, no judging sizes and shapes! Reproduces black and white and actual colors for paintings.

**Also makes drawing larger or smaller as you wish.**

Anyone can use it on any desk, table, board, etc.—indoors or outdoors! Light and compact to be taken wherever you wish. No other lessons or practice or talent needed! You'll be proud to frame your original drawings for a more distinctive touch to your home. Give them to friends as gifts that are "different," appreciated.

**Have fun! Be popular!** Everyone will ask you to draw them. You'll be in demand! After a short time, you may find you can draw well without the "Magic Art Reproducer" because you have developed a "knack" and feeling artists have—which may lead to a good paying art career.

**GET A BETTER JOB WITH HIGHER PAY. SECURITY IN THIS ATOMIC AGE!**

This man is multiplying numbers that should ordinarily produce the answer in about 4 minutes. The answer appears on his blackboard in less than 15 seconds flat! Yet he knows little about math! As a matter of fact he failed arithmetic in school. Read on to discover the fantastic new method that even a child can learn easily in just a few short hours—at home . . .

**Yes, in just hours you can turn into a "math wizard" even though you know little about arithmetic! Surprise your friends with your "E-Z MATH" ability . . . enjoy job security and advancement . . . a better job . . . Increase your self-confidence and prestige—all through amazing new "E-Z MATH".**

The world is moving *fast* these days. In good times and bad the ability to handle mathematical problems in our age of electronics, automation and nuclear science is becoming more and more necessary for promotion on the job and for higher pay. If you don't think you have what it takes—and if you believe that "math" is beyond your power—then you're in for the biggest surprise of your life!

For now you CAN learn to DIVIDE, MULTIPLY, ADD and SUBTRACT figures not only *quickly* and *easily*—but also in a FRACTION of the time the average person requires! You can actually solve such tough problems as multiplying a 5-figure number by a 7-figure number in your head without ever touching pencil to paper . . . or dividing 836791 by 284, for example, in exactly 15 seconds—even if you "flunked" math in school!

The secret of success in "math" is NOT laborious study and wearisome practice—but, on the contrary, knowledge of SPECIAL SHORT CUTS, LITTLE-KNOWN METHODS of calculation and arithmetical "tricks" that take the work and gamble out of figuring. These methods—so new and radical that they have not yet been incorporated in our school systems—take but a few hours to learn. Yet they permit you to OUT-THINK and OUT-FIGURE the average high school and college graduate who hasn't had the benefit of these amazing methods! You can even BEAT AN ELECTRIC CALCULATOR in answering many problems!

## *Figure with SPEED and ACCURACY!*

"E-Z MATH" shows you in plain, easy-to-understand language how to cut figuring time in HALF and even in QUARTERS—and at the same time arrive at the *correct* answer in every case! The methods and short cuts you learn in "E-Z MATH" are *foolproof* . . . require almost NO memorization . . . and are so *practical* that you'll find yourself using these systems virtually every day. You'll become an expert in no time at all. Before you know it—you're ready to move into that important job you've always wanted . . . to drive ahead and in greater responsibility at higher pay . . . and to amaze, surprise and delight your friends with your new magic powers of mental arithmetic! Yes, "math" will open up new opportunities for you, since the person with "math" know-how can just about "write his own ticket."

## *Sharpen Your Brain Power—with Short-Cut "E-Z MATH"!*

Imagine being asked to divide 38634 by 89½—and rattling off the answer absolutely correctly in 7 seconds! Or—multiplying 369.34 by 982.7 and coming up with the *correct* result in 11 seconds! Or adding 29 numbers each with 6 digits—and supplying the right total every time! People will GASP at your fabulous lightning-quick mind. You'll be able to JUGGLE numbers . . . do STUNNING TRICKS . . . amaze your friends and boss—and be a "master mind!"

With a knowledge of "E-Z MATH" you no longer need be puzzled by such every-day figuring as computing interest charges on installment purchases . . . division, multiplication and addition of fractions . . . adding long rows of numbers with 100% accuracy . . . adding and subtracting fractions from whole numbers—plus many, many other practical and valuable pointers you will use daily to your advantage. The few hours you spend with this course will really pay off. Numbers are the basic instrument of all scientific and technical work. The man or woman who can use "math" is rewarded, recognized quickly, moves *ahead* in his job faster and more surely!

## *Order Today on No-Risk Free Home Trial!*

Send for "E-Z MATH" today on our no-risk money-back guarantee: use the book for 30 days . . . prove to your own satisfaction how far a knowledge of "E-Z MATH" can advance you in business and social life. 1¾% interest per month amounts to what percentage yearly? (Solve in 4 seconds)

367 X 75 = ? (Solve in 3 seconds)

## WHAT IS "E-Z MATH"?

"E-Z MATH" is based on an amazing new method of working with numbers—easier to learn and remarkably faster and more accurate than you ever dreamed possible when you took math in school. You'll be shown the newest way of *reading* numbers—just as though they were *words*—and of adding and subtracting them almost at a glance—INSTANTLY! You'll be shown a unique new technique for adding hundreds and even thousands of numbers without ever making a mistake . . . yet you'll never add higher than eleven! Yes, from now on you'll whiz through all figuring problems without wasting your valuable time—through income tax, checking grocery lists, homework—as fast as a calculator. You'll never again dislike or avoid numbers—you'll actually ENJOY using them to get ahead in business!

## WHAT THEY SAY:

"My 10-year old had nearly always failed arithmetic with old-method arithmetic. Then he found my copy of 'E-Z MATH'. Now in less time than you can put the numbers on a blackboard, he can multiply 8391725647 by 12. It's amazing and incredibly easy. I use it myself on my job and my wife uses it to check grocery lists."

*A Father*

"You have a unique new teaching approach for which I compliment you. It's the best I have ever seen. Pupils' marks seem to be climbing as a result. Should help in any job. Excellent for home tutoring use."

—SCHOOL PRINCIPAL

"Thank you! Thank you! Thank you! All our children are using your system too, and it is terrific. My husband and I are using it—and it works! My husband has already received a job advancement with tremendous boost in pay. Best investment we have ever made!"

—HOUSEWIFE

"My employee, Joe Malone, asked for a better job. I recommended he read 'E-Z MATH'. Now that he can do 'tough' problems easily, I've promoted him to head of his department with a $35. weekly increase in pay. I now suggest all employees read 'E-Z MATH' if they want to get ahead in their jobs."

**MENAR MEEBED**
**Road 85, N 42**
**Maadi, Cairo, UAR**

Dear Archie:

I just read the report of Miss Susan Mellentine who won (4th prize) on writing on Egypt about a year ago in one of Archie's comics. I am sorry to see how little she knows about my country. It is not as hot as she said.

In August it may be as hot as Winfield, Kansas. Also my country is not all desert. If you ever studied geography you would see that the river Nile is the second biggest river in the world. We have an excess of water that goes to the Mediterranean Sea every year. That is the reason why our government is working at the high dam. Have you heard about it? It is going to be in, in a very short time, the biggest artificial lake in the world. It will enable my country to cultivate more than 2 million acres of sand where nobody lives right now. Also the desert that Susan was talking about is being invaded by man. Down in the South, in the Oasis of Kdargs, engineers and agriculturists (some Americans) are working to change the sand into meadows and fields. The Valley of the Nile is all green, planted and cultivated. It is not a narrow river. On the contrary it is wide enough to enable us to export the excesses of cotton, fruits, rice, (which needs a lot of water) potatoes and even flowers to Europe and other countries.

From March 21st till June 21st is spring. We have wonderful weather. It is the blooming season (we even have a kind of tree with red flowers).

So as you see Egypt is not so hot or such a sandy country and it is a pleasure to live in. Now I hope I have cleared up any ideas that were misleading to you about my country. I guess I love my country as much as you love yours.

Dear Archie:

I am not an Archie Club member, but I hope someday I will be. Well, first of all, I want you to know more about me. I am a girl of sixteen. (An Indian girl that is). I am five foot two and three quarters of an inch tall. I have dark brown hair and eyes as well. I am 104 pounds in weight. I love to write letters to boys and girls far away. Writing letters is my hobby. Just lately my fellow people started calling me Archie, because I like to make everyone laugh. I am invited to many parties because I am the life of the party, and always seem to liven things up. They always tell me don't do what Archie doesn't do in the comic strips.

I've been thinking of starting an "Archie Fan Club." I have talked to some of my teenage friends and they said it sounds like a great idea. I've got everything. A clubhouse, pens, writing paper, envelopes, stamps, members and odds and

ends. Right now we are broke because we bought different kinds of furniture for our clubhouse. We are going to call it "John Simpson."

I hope this letter gives you an idea of what I'm like and what I do in my spare time.

Reggie: Absolutely. The sharks scare them away.

Reggie: Did you ever tickle a mule?

Archie: No.

Reggie: Try it. You'll get a big kick out of it.
